

# PhD Seminar on Electrochemical Impedance Spectroscopy

**20<sup>th</sup> of May 2014 from 9:00 - 15:30**

**Aalborg University, Pontoppidanstræde 107 rum 9., Aalborg**

## Programme

9:00 Introduction to electrochemical impedance spectroscopy (Eivind Skou)  
Brush up on Electrochemistry  
Introduction to impedance spectroscopy  
Equivalent circuits etc.

Group work

12:00 Lunch

13:00 Group work using your own spectra (please bring your own data)

13:45 Break

14:00 Presentation from the groups

14:45 Operational EIS

Automatic treatments of EIS spectre  
EIS on fuel cell stacks

(Daniel Riskov Sørensen)  
(Søren Juhl Andreasen)

15:30 End

## Signup

Please email [Incl@dtu.dk](mailto:Incl@dtu.dk) to sign up for the seminar, include a line about your previous experience with EIS

## Arranged by

**4M Centre**

Mechanisms, Materials, Manufacturing and Management –  
Interdisciplinary Fundamental Research to Promote commercialization of HT-PEMFC

## Funding by

The  
Danish Council for  
Strategic Research
